

SAMUEL GOMPERS

Confers With Mayor Dunne
At Chicago Today.

"I HOPE FOR PEACE," SAYS HE

Labor Leader Announces He Is Will-
ing To Aid In Any Peace
Move.

Chicago, May 17.—President Gompers this morning refused to divulge any plans for settlement of the teamsters' strike. To every interrogation he replied, "I'm not here to talk." From an official of the unions it was learned today that Mr. Gompers would confer with President Shea of the teamsters' and President Dold, of the labor federation today. After obtaining a full understanding of the situation Gompers will receive visits of representatives of the employers. He may be invited to confer with the employers, and will be asked to visit Mayor Dunne. Gompers issued this statement: "I'm not here to supersede any one in authority. I am simply a 'helper' to President Shea. Whatever he and President Dold do will govern. I hope for peace."

Dold said this morning: "I do not see how anybody can settle the strike as long as the employers refuse to arbitrate. If they refuse, the unions can do nothing but abandon the strike or continue it. The employers refuse to meet us on any ground necessary for a settlement."

President Gompers called upon Mayor Dunne shortly before noon today and held a conference with the executive on the strike situation. The Mayor requested Gompers to use his influence to prevent a spread of the strike and if possible bring about a settlement. Gompers said he was willing to aid in any peace move.

President Samuel Gompers of the American Federation of Labor was a late arrival in this city. Although he is not possessed of executive power in the settlement of the strike, President Gompers declared that he had every hope that its end was not far distant. "It was my intention to come to Chicago anyway at the end of the week," said Mr. Gompers, "but after holding a conversation over the telephone with Mr. Shea, I decided to anticipate my visit somewhat, and came at once. I certainly shall do all in my power to end the strike, and I have great hopes of success." Immediately after leaving his train President Gompers went into conference with President Shea and local officials of the teamsters' union.

At a meeting of the board of education warrants were sworn out for eight boys who have been leaders in the recent strikes at the schools in sympathy with the strike of the teamsters. It was announced by the superintendent of compulsory education that he had definite information to the effect that the majority of the strikes at the school had been instigated by hoodlums, who had told the pupils that it was their duty to refuse to attend school because the schools were buying coal of the wrong firms. The threat of arrest of parents whose children did not attend school had the effect of settling three of the strikes.

Members of the employers' association and the conservative element in the ranks of the teamsters predict that the strike will be called off probably within 48 hours, and certainly by the end of the week. It is not likely that any definite action looking to an adjustment of the trouble will be taken prior to the meeting of the national officers of the teamsters' union.

NAN PATTERSON

To Appear at \$2,000 Per Week in
Vaudeville—Quietly Appears in
Philadelphia.

Philadelphia, Pa., May 17.—So quietly that not a dozen persons knew of her arrival Nan Patterson paid this city a visit yesterday. She was here less than three hours and upon returning to New York she took with her a contract to appear in vaudeville on the Hurtig and Seamon circuit at a salary which is understood to be \$2000 per week.

Nan arrived at Broad street station shortly after 2 o'clock. As she approached the cab stand a driver of a handsome car approached her, but she exclaimed: "A closed cab, please."

She was driven to the Walton where her lawyer, Daniel O'Reilly, was waiting for her with a vaudeville agent. The three ordered luncheon, and during the course of the meal the terms of the contract were discussed.

When she was shown the declaration of Judge Vernon M. Davis, who presided over two of her trials, to the effect that the "very air seemed charged with the fact that she was lying on the witness stand," Nan tossed her head and said: "Why, that is not true." She left for New York at four o'clock.

Enoch Carlson Boy Eight Years Old
Killed by Colored Man in City
of Chicago.

Chicago, May 17.—Enoch Carlson, 8, was shot and killed by a colored man, a former employee of the Peabody Coal company, which has sustained an active part in the teamsters' strike. Two colored men were walking along the street when some boys, who were playing ball in an adjoining lot, hooted at them. One of the colored men drew a revolver and fired at the boys. Just as he did so the Carlson boy came around the corner and the bullet struck him in the left groin. He died while being taken to the hospital. The colored men escaped.

Dagblat Expresses Belief That King
Oscar Will Resume Reins of
Government June 1.

Christiania, Norway, May 17.—The Dagblat expresses the belief that King Oscar will resume the reins of government June 1. This is regarded as a semi-official intimation, and if it turns out to be correct it means, probably, that King Oscar intends to sanction the Norwegian consular bill, thus assuming direct responsibility for an act calculated to irritate his Swedish subjects rather than leave the responsibility on the shoulders of the crown prince regent.

Two Youths When the Train
Struck Them.

Kokomo, Ind., May 17.—Elgie Houser, 20 years old, and Claud Griffith, 19 years old, sons of farmers living near Jewell, Howard county, were killed on a grade crossing of the P. C. & St. L. railroad, near here, by the Louisville express yesterday.

The young men had been to a country "belling" and had started home, driving a pony to a buggy. It is presumed they fell asleep for the buggy was standing on the track when the train bore down on them. The buggy was reduced to kindling, and Griffith was killed instantly, nearly every bone in his body being broken.

Houser was found unconscious and lying beside the track by the train crew. The pony was uninjured, although stripped of all the harness but the bridle.

The bodies were placed on the train and brought to this city. Houser died at 4 o'clock in the morning.

WITH HATCHET SHE BROKE INTO ROOM

MRS. FREEMAN FOUND HUSBAND
THERE IN COMPANY WITH
MRS. EWING.

Handsomeness Dressmaker of Mans-
field Was Disfigured After Lively
Encounter Tuesday.

Mansfield, O., May 17.—With a hatchet Mrs. Henry H. Freeman, wife of a well known salesman, chopped her way into a lodge room on the third floor of the Keith-Scattergood building on North Main street, yesterday, and looked upon a lodge room scene extraordinary, for she beheld her husband in the company of Mrs. Gertrude Ewing, a handsome young dressmaker.

Mr. Freeman explained to his late wife, who was accompanied to the lodge hall by her two children, that Mrs. Ewing had lost her gloves when she was at the social the night before and he was helping her hunt for them. He did not, however, explain the significance of the lodge room door being locked. Then Mrs. Freeman went at Mrs. Ewing like a cyclone, tearing Gertrude's hair and her dress into shreds, scratching her face, hitting her in the jaw and blacking one of her eyes. While the fight was going on the husband stood as if stricken dumb. The battle raged through the hallway of the building, and before the fight was over a large crowd had gathered to watch the mix-up. In the melee Mrs. Ewing lost her watch and hasn't recovered it yet.

Young Mrs. Ewing and Mr. Freeman were arrested on the charge of disorderly conduct at the instance of Mrs. Freeman, who, with the children, accompanied Captain Charles and the prisoners to police court. Mr. Freeman and Mrs. Ewing were arraigned before Acting Mayor Manner, who fined the guilty husband \$20 and costs and Mrs. Ewing \$10 and costs.

Acting Mayor Manner scored Mrs. Ewing severely, commenting upon her actions in the lodge room, behind locked doors, and reminding her that this might mean the breaking up of two families. Freeman paid the fines and the couple were released.

Mrs. Freeman was exonerated from any blame for giving Mrs. Ewing the punishment she did. Mrs. Ewing is well known and belongs to several lodges.

He and McCloskey left together the day following the murder, and remained near Parkersburg till McCloskey returned to Brookville Sunday to get his pay, and while there was placed in jail.

BY DEATH'S HAND

Mrs. S. J. Wright Is Touched
Wednesday Morning.

SISTERS MEET A LIKE FATE

Just Three Years Ago Mrs. Grace
Fleck, of Newark, Died From
Effects of Fall.

The spirit of Mrs. Sarah L. Wright took its flight at 4 o'clock Wednesday morning at the residence of Mr. and Mrs. Henry S. Fleck, 453 Hudson avenue, as the result of injuries sustained on the morning of May 8th, when Mrs. Wright fell down a short flight of steps after leaving her room.

Just five days more than three years ago, Mrs. Wright's sister, Mrs. M. Grace Fleck, of this city, sustained a similar injury at the residence of Mr. Fred S. Wright, and died the same evening.

Mrs. Wright came to Newark a short time ago with her daughter, Miss Grace, to visit at the Fleck home. She had been in feeble health and this fact coupled with her advanced years, contributed to the fatal termination of her injury. Arising in the night, Mrs. Wright stepped from her room into the hallway and losing her balance, fell down a short flight of steps.

Appreciating the gravity of her condition the family sent messages to all the members of her family, and all save one son, John L. Wright of Des Moines, Ia., arrived here before the mother passed away. The children present were Charles S. Wright of Kansas City, Mo., Mrs. George Atkins of Marietta, Pa., Mrs. E. T. Leavenworth of Des Moines, Ia., and Miss Grace Wright of Lancaster, Ohio.

Mrs. Wright was born in Ashland, Ohio, in June 1833, being the daughter of John and Sarah Greeley Lang. She obtained her education at Granville Female college and was married to the late Spencer J. Wright of Lancaster, who died about four years ago. Last Monday, May 15th, was Mrs. Wright's 50th wedding anniversary.

Members of the family and friends accompanied the remains to Columbus at 3 o'clock Wednesday afternoon on a Buckeye Lake trolley car and in the Capital City the funeral party was met by a car on the interurban line running to Lancaster. Arrangements have been made to conduct the funeral services. Friday afternoon at the Lancaster Presbyterian church of which Mrs. Wright was an honored member.

The tragic death of Mrs. Wright, recalling as it does the sad and fatal accident to her sister, Mrs. Fleck, three years ago, was learned with deep regret, by many friends in Newark and Lancaster. Both Mrs. Wright and Mrs. Fleck were women of the highest character, each possessing a lovable disposition. Their strength of character made each a potent factor in every circle in which they moved.

MISS LUCILLA ADAMS.
It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those snow white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.
Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of ovaries or healthy condition of the ovaries and the trouble will make itself heady until the trouble has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.
The following letter should bring hope to suffering women. Miss Lucilla Adams, of the Colonnade Hotel, Seattle, Wash., writes:
Dear Mrs. Pinkham:—
"About two years ago I was a great sufferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor on the womb and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."
Just as surely as Miss Adams was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability and nervous prostration.
Mrs. Pinkham invites all young women who are ill to write her for free advice. Address, Lynn, Mass.

WED BOYHOOD'S LOVE.
Dr. Shults and His Sweetheart of Thirty Years Ago Are at Last United.
Bowling Green, O., May 17.—After thirty years, during which time all of the things which might tend to make the course of true love much like a corduroy road were in evidence, Dr. John Ward Shults, a physician of Wichita, Kansas, and an author of some note, and Miss Eudora Florence Underwood, an accomplished lady of this place, found a happy conclusion of all their troubles in a quiet marriage at the home of Mr. Lewis Cramer in this city yesterday.
Dr. Shults met his affinity thirty-two years ago in southern Ohio, but his suit did not meet with the favor of the parents of his adored one and it was finally agreed that the young people should not meet again.
Dr. Shults sought to forget the dream of his youth and become a wanderer upon the earth, seeking recreation in the solitudes of the forest countries and on the wastes of Siberia, in which country he prepared several articles for American magazines.
He finally married, and though his first wife had been dead for several years, she left him a beautiful daughter.
During his sojourn in eastern Siberia Dr. Shults met an American missionary who was from Ohio. This man knew the doctor's first love, and informed him that she had never married. While in mid-ocean on the Behring sea, Dr. Shults wrote to Miss Underwood for the first time in twenty-nine years. This letter in due time found its way to the maiden, who was then in this city grown to mature womanhood.
That was in 1904. As soon as the doctor got back to civilization he sought his old time sweetheart and a wedding was at once arranged for. The doctor has a handsome home in Wichita to which he will take his bride.

Valentine Anti-Trust Law.
Cleveland, O., May 17.—The constitutionality of the Valentine anti-trust law will again be put to the test of a decision by the Supreme court. It is claimed it is in violation of the constitution of the state and of the United States, and the case may be carried to the Supreme court of the United States. This move was outlined today in the filing of a demurrer to the indictment against members of the retail coal dealers' protective association recently indicted on charges of combining to regulate the sale of coal.

FOURTH BALTIC SQUADRON.

The main ships of the new squadron, it is understood will consist of two new battleships, two cruisers, torpedo cruiser gunboats and several minor vessels. The admiralty is placing a great deal of reliance on the new squadron.

SUNDAY SCHOOL.
CONVENTION NOW IN SESSION AT CHURCH OF CHRIST.
Twenty Townships Represented Wednesday—Program Carried Out as Published Saturday.
The opening session of the twenty-fifth annual convention and institute of the Licking County Sunday School Association, was held Tuesday evening at the Fourth Street Church of Christ. This meeting was really intended to be rather a local meeting, that is, the delegates from the city. Tuesday evening, a committee was chosen, composed of Rev. T. Cosgrove, Rev. J. B. Bovey, and Mr. E. S. Randolph, from Newark township, to nominate officers for the Newark convention.
Rev. W. A. Berger, president of the Licking County Association, delivered a short address, making the visiting delegates welcome, and in the latter part of his address he brought out the importance of Bible study and its place in the Sunday school.
Rev. T. L. Kierman delivered a very fine address on the subject, "The Personality in Religious Education." Mr. Kierman spoke for some time and brought out a number of helpful points in this connection.
The music at the morning session was in charge of Mr. E. S. James of New York, owing to the illness of S. H. Myers of Chicago, who was to have directed it. Throughout the remainder of the convention the music will be in charge of Mr. T. W. Harris, a Gospel singer from Pickerington, O., who is taking Mr. Myer's place.
The Wednesday morning session was opened at 9 o'clock. The general attendance was not large, although later in the morning twenty townships were represented.

"The Four Gospels," a study by Dr. A. H. Lathrop of Granville, was very interesting, and Rev. W. H. McDaniel of Croton, formerly superintendent of schools at Frazeysburg, gave a splendid address on "A Forward Movement in Teacher-Training." After the informal reception at 11:30 the meeting was adjourned until 1:30.
After the praise service, conducted by Mr. James, a conference on county and township organization, was conducted by C. W. Shinn, assisted by Messrs. Berger, Dixon, Miller and others.
A fine address on the "Secrets of Successful Teaching" was delivered by Dr. E. S. Lewis of Columbus.
The principal speaker, and it is expected the strongest speaker ever heard at a convention in Newark, will be Miss Nannie-Lee Frayser of Louisville, Ky. Miss Frayser is the state primary secretary in Kentucky. She spoke at the last two State Sunday School conventions and made a lasting impression upon her hearers.
Sessions will be held tonight, tomorrow morning and afternoon and evening.

RAILWAY MATTERS.
THREE HANDSOME TRAINS PASS THROUGH NEWARK.
International Railway Congress—Theatrical Train to be Taken Off—Newsy Local Paragraphs.

Three special trains, all handsomely equipped, veritable palace trains, so fine were the furnishings in the coaches, passed through Newark Tuesday evening enroute from Pittsburgh to the western terminals of the Pennsylvania railroad.
The trains had for passengers, officers and delegates of the International railroad congress. One of the finest banquets ever spread in the Smoky City awaited the guests there Monday night. Tuesday the guests departed for various parts of the country, where an inspection of American railroads was made.
At the congress railroads from all over the country were present. The souvenirs for the occasion were printed in several different languages for the benefit of the foreign officers and delegates.

Paint of Peculiar Color.
The B. & O. yard office is being given a coat of paint. The clerks at the office are inclined to think that the color selected by the department in charge of that kind of work was chosen with a view to its durability rather than beauty of color. The entire morning was spent casting votes as to what color was being applied but at noon the clerks could come to no agreement. Meanwhile the painters on the outside kept daubing the stuff on the building.

B. & O. to Take Off Train.
The management of the B. & O. has decided to take off the theatrical train which has been running between Pittsburgh and Cincinnati via Newark. This train will make its last trip leaving Pittsburgh 12:05 Saturday midnight. The passenger officials feel that the train has been a paying proposition and will put it in service again next year during the theatrical season. The train was handled through Newark as a section of No. 105.

OPPOSITION.
Among Manufacturers to Governmental Regulation of Rates.
Atlanta, Ga., May 17.—More than 300 of the 3,000 members of the National Association of Manufacturers, accompanied by a hundred ladies, assembled at the opening of the tenth annual meeting of the association. Representatives from almost every section of the country were present. The importance of the gathering was indicated by the fact that the membership represents a large majority of the \$12,000,000,000 of invested capital of the United States, and by the additional fact that among the questions to be discussed during the three days' sessions are interstate commerce and reciprocity. That strongly diverse views upon the former subject are entertained was manifest in the discussions, opposition to government control of transportation rates being sounded.

New York, May 17.—Mrs. Caesar Young sailed today for Europe. John Millin, formerly Young's partner, was also a passenger. It was reported the couple had married and were sailing on their honeymoon, but this is denied by a sister of Mrs. Young.

Engineer Over the Route.

Mr. W. R. Wemple, consulting engineer for a brokerage firm of New York, who came here to investigate the feasibility of constructing the Newark, Martinsburg and Mt. Vernon electric railroad, returned from a trip over the proposed route of the new road last night, and is enthusiastic over the outlook. While he has not made any report concerning the matter, parties in a position to know are sanguine that his report will be of the most favorable nature and that work will be commenced on the new road in the near future. Today Mr. Wemple and Mr. J. A. Chilcote are spending the day at Buckeye Lake.

Search For Pochontas' Remains.

The recovery of the remains of Princess Pocahontas, otherwise Mrs. John Rolfe, from the place of their original entombment at Gravesend-on-Thames, in England, with the object of bringing them back to America in connection with the tercentennial celebration of the discovery and settlement of Virginia, is likely to offer even more difficulties than the search for the body of Paul Jones, successfully accomplished by General Horace Porter, for St. George's church, in which she was entombed when she died of smallpox, in 1617, either at or off Gravesend, was burned in 1727, and, judging by the number of charred and nameless coffins which the late rector, the Rev. Dr. Haslam, discovered when he rebuilt the church about forty years ago, the fire penetrated to the two vaults, says the New York Tribune. Moreover, the position of the vaults can now only be guessed at, and they are so much built over, first of all by the re-erected church and then by the new church, that it is doubtful whether they could ever be reached, besides which the consent of the church authorities, as well as of the English descendants of "la belle sauvage," including General Baden Powell, Inspector general of cavalry of the English army, would have to be obtained.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

DR. REINHART

Whose Subject Was "The Prize Winner." Delighted Audience at the Pine Street Chapel.

It might well be said that the lecture given by Dr. E. W. Reinhart at Pine Street Chapel last evening was a "royal treat" to all who heard it. There is but one regret to be expressed and that is that it could not have been heard by every person in Newark. He took as his subject "The Prize Winner."

"That was one of the best I ever heard," came from every corner of the audience. His lecture was one unbroken chain of the sublime thought, showing great care and research in preparation and throughout it was filled with good sense, brilliant with new suggestions and inspiring to higher life and nobler deeds.

The pastor of Pine Street Chapel is to be congratulated upon his arrangement of so excellent a course of lectures, at so nominal expense, and the people of West Newark should show their appreciation of Mr. Yantis' earnest and untiring effort by flocking to the support of so good a cause.

Remember there are but two more evenings of this course. On account of a death, Rev. Mark G. Clayton, pastor of the Presbyterian church at West Liberty, will deliver his lecture Friday evening, May 19, instead of tomorrow evening as announced. His subject will be "The Man Who Gets There." Rev. Isaac Cassell, A. B., of Delaware, O., will then close up the course Thursday evening May 25. Subject, "The Arena."

Don't miss hearing Mark G. Clayton next Friday evening.

There is a movement in Florida to reclaim the Everglades, which comprises 3,000,000 acres of marshes or lagoons, covered with primeval forest trees. It is proposed to drain at least the more accessible marshes and clear away the trees and tangled semi-tropical vegetation. It is believed the lands, if once thoroughly reclaimed, would be very fertile and valuable.

MOLTEN IRON

Splashes in Ray Armataugh's Face, Badly Injuring His Eyes at the Wehrle Foundry.

Mr. Ray Armataugh, a molder at the Wehrle foundry, met with a very serious accident Tuesday, in which both eyes were badly burned.

Mr. Armataugh was engaged in pouring the molten iron and in some manner the iron exploded, striking him squarely in both eyes, part of the iron staying in the left eye, literally cooking it. Dr. W. B. Nye was called to attend to Mr. Armataugh and after removing the particles of iron and making an examination, stated that while the eyes were seriously burned he had hopes of saving them.

"I began to use it about seven months ago for weakness and nervousness, caused from overwork and sleeplessness, and found that in a few days I began to grow strong, my appetite increased and I began to sleep better, consequently my nervousness passed away and the weakness in the pelvic organs soon disappeared and I have been well and strong ever since."

GRANVILLE NEWS

Granville, O., May 17.—On Tuesday evening a very enjoyable social was given in the parlors of the Baptist church by the B. Y. P. U. There was a good attendance. Refreshments were served and all sorts of amusing games were indulged in.

The many friends of Mr. Samuel Anderson who was stricken with paralysis a few days ago, will be sorry to learn that his condition is still considered very serious.

Miss Nellie Hill of Zanesville, who has been visiting friends here for the past several days, returned home Tuesday afternoon.

CROP CONDITIONS

Washington, May 17.—The weather bureau's weekly bulletin summarizes crop conditions as follows:

In the upper Mississippi and upper Missouri valleys and throughout the Rocky Mountain and North Pacific coast regions, the week ending May 15, was too cool for germination and growth, and excessive rains greatly interfered with farming operations in the central and west Gulf states and generally throughout the central valleys and lake region.

In the Atlantic coast and east Gulf districts with the exception of New England and the northern portion of the middle Atlantic states the temperature conditions were favorable, but there was too much rain in the Carolinas and insufficient moisture in portions of the middle Atlantic states and New England, the forecast of the week being too cool in the two last named districts. In California the conditions were more favorable than in the preceding week.

In consequence of continued heavy rains corn planting has been impracticable over nearly the whole of the corn belt and this work is now greatly delayed. In Iowa several days of dry weather will be required before planting can be generally resumed and similar conditions exist to a greater extent in Northern Illinois, Indiana, Ohio and the southern portions of Wisconsin and Michigan. Corn planting progressed favorably in the middle Atlantic states, where it is largely finished.

Reports of damage to winter wheat by rust and insects while principally confined to the southern portion of the wheat belt are more numerous than in the previous week, but the crop as a whole continues in promising condition and has made satisfactory advance during the week. Wheat is now heading as far north as central Kansas and Missouri and the southern portions of Illinois and Indiana. Over the southern portion of the spring wheat region spring wheat has grown well and is in good condition, but in the Dakotas and Minnesota growth has been very slow much of the early sown in North Dakota having been frozen. On the North Pacific Coast spring wheat is in very promising condition. An improvement in the condition of oats is reported from Iowa, Nebraska and Kansas, although rain is needed

for this crop in portions of the last named state. In the Dakotas and Minnesota in common with other spring sown grain, oats made but slow growth and in Texas the crop has suffered from rust. Elsewhere the outlook for this crop is promising.

AS MOTORMAN

The Rich Norwegian Nobleman's Son Has Labored for Two Years in Pittsburgh.

Pittsburg, Pa., May 17.—A long lost son of Christian N. Falsen, of Bergen, Norway, a rich nobleman of that country, has been located at Bradlock as a motorman on the Mononachela division of the Pittsburgh Railway company. The man's name is Frank Falsen. He is 33 years old. Until notified late this afternoon by Pittsburgh detectives of the fact that his identity is known, he was unaware that his father in Norway had located him.

His identity was discovered by Superintendent Thomas McQuade, who learned that Falsen came here in May, 1903, and, representing himself to be a machinist, soon got employment with the Pittsburgh Street Railway company as a motorman.

The father, who recently learned that his son was in this locality, sent him, in care of the railroad company a check for \$1,000 for his personal use. The check is now held for him in the Parkway offices of the company at Sandusky, Ohio. The traction company say he is a model employe.

Wife Charges Desertion—Miller Sold Farm Recently—Probably Couple Went West.

An affidavit for a state warrant was placed in the hands of Chief Sheridan Wednesday morning against Edward Miller, in which he is charged with deserting his minor children. It is alleged that Miller has disappeared from his home east of the city, near Wilkin, and that a domestic employed at his home, Clara Miller, about 17 years old, is also absent from her home. It is said that Miller sold his farm recently and had a considerable sum of money at the time of his disappearance. It is thought that the couple have gone west.

Miller, who is about 40 years old, has three children all of whom are under 16 years of age.

Newark Factory Gets Another Good Order—This Makes 280 Cars for This One Company.

The Jewett Car company has just received an order from the South Side Elevated Street Railway company of Chicago for seventy more cars, which will be built at once.

The Jewett company commenced to build cars for this company five years ago and so well has the management been satisfied with the work that every subsequent order has come to Newark. This last order makes 280 big cars that will have been built here for this one company.

DRUNKENNESS A TERRIBLE DISEASE

In every large city the mission superintendents are brought closely into contact with the terrible results of drunkenness, and realize what a fearful curse it is to humanity. W. C. McMichael, superintendent of the People's Mission in Washington, says: "I am superintendent of the People's Mission, a recognized Christian organization that is doing a world of good. One of our people who had been drinking a pint of whisky a day for a great many years was put on Orin, and I am happy to say that a cure was effected within ten days from the time the first dose was given, and he is now restored to perfect sobriety. I have no way to thank you for the valuable specific for this terrible disease, drunkenness."

Orin, No. 1 is given secretly in any food or drink, while No. 2 for those who are willing to be cured. Either form is \$1 per package. Orin is a guaranteed cure for the liquor habit, and is sold and recommended by P. D. Hall, 16 North Side Square, Newark, Ohio.

TOWARDS LANDING NEW FACTORY AT MT. VERNON.

Ickes & Sturgeon Have Curtis Farm Which Will be Divided into Lots. Prize For a Name.

Mt. Vernon, O., May 17.—The first steps were taken here Tuesday to secure the big plant which Messrs. J. M. Ickes and C. F. Sturgeon of Newark are promoting. A big mass meeting was held Monday night attended by a large number of Mt. Vernon business men when committees were appointed to handle the matter for the board of trade.

Messrs. Ickes and Sturgeon have secured a piece of property south of the corporation line at Mt. Vernon, near the proposed factory site and will lay the property out in streets and lots. These will be sold to Mt. Vernon people. The promoters ask that the city extend water mains to the new territory, and agree not to annex the property for at least five years. The citizens will further agree to purchase 200 lots from the new addition. J. F. Adamson of Hartford City stated that at least 350 new homes would be required to accommodate the workmen who would be brought to Mt. Vernon by the new industry.

Ickes & Sturgeon will give a \$10 gold piece to the boy or girl, 18 years old or under, who lives in or within three miles of Mt. Vernon square, who suggests a name which will be accepted by the board of trade, for the Glass House addition, now known as the H. B. Curtis farm, east of Martinsburg road. Names are to be sent to Ickes & Sturgeon in sealed envelopes. Envelopes will be opened by the committee Monday, May 22nd. Should two or more suggest the same name the money will be equally divided.

A Good Suggestion. Mr. C. B. Wainwright of Lemon City, Pa., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drunk. "That when taken in this way the effect is double in rapidity. It seems to get at the right spot instantly," he says. For sale by all druggists.

KIRKE LA SHELLE DIED ON TUESDAY

FORMER MANAGER OF OPERA HOUSE IN NEWARK IS NO MORE.

Later He Became Prominent in the Theatrical World—Was Ill for Several Weeks.

Kirke La Shelle, theatrical manager and playwright, formerly of Newark, died at his home at Bellport, Long Island, Tuesday. He had been ill for several weeks, and had been confined to his bed for a fortnight suffering from phlebitis, resulting directly upon a strain of his left leg.

Mr. La Shelle leaves a widow and two children—a little girl, aged 8 and a little boy, aged 4 years. Funeral services for the family and intimate friends will take place from his late residence at Bellport Thursday at noon.

Mr. La Shelle was born in Wyoming, Ill., in 1864, of French Huguenot parents. He began life as a printer's "devil" in a local newspaper office, became a printer and finally foreman of the Chicago Daily News. Taking a position as reporter, he was successively city editor, managing editor and chief editorial writer of the Chicago Mail. From the Mail he went to the Post as dramatic and literary critic.

He first entered the theatrical business in 1891, when he became advance agent and manager for E. S. Willard, then on his first tour of America. His first venture as a full-fledged manager was in partnership with George Lederer in the production of a comedy for Charles Dickson. The next season he was business manager of the Bostonians' Robin Hood company and later of all the interests of that organization.

With Arthur W. Clarke Mr. La Shelle promoted Frank Daniels as a star in "The Wizard of the Nile," which in two seasons founded his fortune. Mr. Clarke retired thereafter, and Mr. La Shelle continued his managerial career alone.

It was in "The Ameer" that Mr. La Shelle did his first work as a librettist, writing the book for that opera jointly with Fred Rankin. Later, in conjunction with Julian Edwards, he furnished for Miss Minnie Methel the three-act comic opera "The Princess Chic." In 1897 Mr. La Shelle, with the late Fred Hamlin, produced Augustus Thomas's "Arizona." They made independent fortunes out of the play, which had been refused by half a dozen Broadway managers. Of the various enterprises in which Mr. La Shelle has been successful, none held so much of his personal interest as the starring of Mr. J. H. Stoddard in "The Bonnie Brier Bush," which has now been on tour for about five years, the last season of which was brought to a close by the physical breakdown of Mr. Stoddard.

Three years ago Mr. La Shelle produced at the Madison Square Theatre another play by Augustus Thomas which a number of managers had refused. It was "The Earl of Pawlucket."

In this same season he produced Henry W. Blossom's play, "Checkers." In 1903 "The Virginian," a dramatization of Owen Wister's Western tales, was made by Mr. La Shelle and Mr. Wister, and was uniformly successful. Mr. La Shelle took little time to rest, and it was overwork that brought on his final illness.

Mr. La Shelle while in Newark, managed the old Opera House. He was a close friend of Mr. Harry S. Fulton, who has become prominent in the theatrical world.

MUCH PLEASED

WITH CONDITIONS ALONG ROUTE
OF PROPOSED ROAD.

Engineer Wemple Reaches Mt. Vernon After Going Over Line from Newark via Gambier.

Mt. Vernon, May 17.—Engineer W. R. Wemple, representing eastern capitalists, accompanied by Dr. J. F. Shrontz and Mr. F. E. Elliott of Martinsburg, arrived in Mt. Vernon Tuesday afternoon, completing a two-day trip over the route of the proposed electric railroad between Mt. Vernon and Newark.

"I have never seen better conditions as relates to grades along the high-ways of the route over which I have just passed," said the engineer. "It seems that nature has provided the road-bed for the very purpose of an electric railway."

Mr. Wemple visited Rain Rocks and Falling Rocks, two points noted for their beautiful scenery Monday and was greatly impressed with the beauty of the country. Judging from his statements there can be but little doubt that his report will be a most favorable one. He has taken views of scenery along the route, which follows the Rocky Fork to Martinsburg and thence to Mt. Vernon by way of the Big Run and Kokosing valleys, touching Gambier. Perhaps the heaviest grades to be taken care of are on the part of the route between Gambier and Martinsburg. The engineer stated that he expected to remain in this section several days, largely because he enjoyed the scenery. From this point he will go to South Dakota to do work of a similar character.

Should this road be built the people would owe much praise to Dr. Shrontz and Mr. Elliott, who have been untiring in their efforts to secure it. They have spent much time since the project was first taken up two years ago in securing rights-of-way and in calling attention of capitalists to the opportunity for profitable investment. Others have assisted, but the burden of the work has been done by these two men, who kept fanning at the coals when the fire seemed to be burning low.

For some time past a number of energetic business men of Newark and Mt. Vernon and Martinsburg have had the matter of the construction of this road under consideration, and it is believed that it will be one of the best paying roads in central Ohio. The gentlemen at the head of the enterprise have been in correspondence for some time with a reliable brokerage firm of New York, concerning the mat-

ter and about ten days ago, Dr. J. F. Shrontz and F. E. Elliott, in response to a telegram, went to New York and completed all the arrangements for the building of the road with the brokers to the minutest detail, including the financing of the road, issuing of the bonds, awarding of the contracts, etc.

The new road is to be known as the Newark, Martinsburg, and Mt. Vernon Traction Line. It has already been incorporated with the following incorporators, Messrs. E. H. Everett, Edward Kibler, John A. Chilcote of Newark, and Dr. J. F. Shrontz and F. E. Elliott of Martinsburg.

This same company has already obtained the greater part of the right of way from Gambier to Wooster, and if the Newark, Martinsburg and Mt. Vernon branch is built, it is certain that the road will be extended to Wooster. When this is done it will close up the open link from Cleveland to Cincinnati.

The gentlemen at the head of the enterprise are confident that a favorable report will be made by Mr. Wemple, and that work will be commenced on the new road and pushed to completion as rapidly as possible. Among the Mt. Vernon men who have been engaged in the enterprise is Mr. Ed Dever, who has been in close touch with all that has been going on and who has rendered much valuable assistance.

BUCKEYE LAKE BOATS

Dell Fisher Company Which Has Improved Steamers Now Ready for Excursion Season.

The Dell Fisher Boat Line company, controlling all the large launches and steamers plying on Buckeye Lake, is now in readiness for the excursion season. Several of the boats have been overhauled and put in first class condition. New machinery has been installed in two of the vessels, and several improvements made at different points on the lake in the way of landing facilities. The gasoline launch Ada has been equipped with a new 21 horse power three cylinder engine of the Low type, and will probably prove to be the fastest boat on the lake this year. The Ethel has been overhauled and several new parts added to her engine. She has been repainted and varnished and presents a handsome appearance. The Pastime is now in commission, and as this boat was new last season, it is in first class shape for the summer. The America and the Alert are also in commission, and will make the regular trips from the Park pier to all points on the west end of the reservoir.

BROTHER-IN-LAW

Of the Assassin Guiteau Declares His Wife's Affections Were Alienated By Chaney.

Knox, Ind., May 17.—The trouble of the venerable George Scoville, brother-in-law of Guiteau, the assassin of President Garfield, are not at an end. A suit has been filed in the Starke Circuit court by Scoville against William L. Chaney and wife for \$5,000. He alleges the alienation of Mrs. Scoville's affections.

Scoville was a New York attorney when Guiteau committed his crime. Having known Guiteau as one of his pupils and later as his brother-in-law,

Scoville believed the assassin insane. Acting on this theory he made a gallant fight to save Guiteau from the gallows. Failing to do so, Scoville's wife, a sister of the assassin, deserted him.

Broken in health and having spent his fortune in this famous trial, Scoville came West, remarried and located at Bass Lake, south of this place, where he has resided 15 years.

Although no definite information has been received in this city, it is generally understood that Lawyer R. L. Tanneyhill is in Providence, R. I. As far as can be learned, no one here has received any word, either from the attorney or his people. However, it was stated by a Newark man Wednesday morning that Tanneyhill was in Providence.

ARTERY SEVERED

Charley Hagerty Almost Died To Death by Falling Upon a Pile of Broken Glass.

Charley Hagerty met with an accident on Wednesday noon that was both painful and serious in its results. He was walking through the alley leading from West Main street to the canal when he fell upon a pile of broken glass, cutting the main artery of his left wrist. The blood poured in a perfect torrent from the wound, and had it not been for the presence of mind of Ray Donahue and several others he would have undoubtedly bled to death. As it was he lost a large quantity of blood. He was taken to his home on South Fourth street by Officer Callan, where the injuries were attended to by Dr. D. M. Smith.

PREPARE FOR SUMMER

Assist nature in getting the system ready for the depressing Summer months.

The change of Nature from Winter to Summer is no greater than the change that takes place in our physical systems at this season, and few can undergo it without some manifestation of disorder. Some have no particular ailment but are just worn out and tired, with their energies so depleted that they are totally unfit for work or physical exertion of any kind. The appetite is variable, they are peevish, hysterical and often unreasonable, the digestion is imperfect, the stomach deranged and altogether they are mere drags in their every day life. To others the return of Summer means the return of disease, for warm weather is sure to force out the hidden poisons and seeds of disease which have accumulated in the blood during the Winter, and some old chronic trouble makes its appearance. Boils, Eczema, Tetter, Acne, scaly eruptions, rashes, pimples, etc., break out also at this time, and the heated season is made worse by the burning and itching of these skin tortures.

During the winter months we live a shut-in life as much as possible, breathing the impure air of closed rooms and heated offices; we indulge our appetites to the fullest, eating more of the heavier, richer foods and take a great deal less exercise. As a result the blood grows thick and sluggish, the Liver, Kidneys, Bowels and other avenues of bodily waste become inactive and dull, failing to carry out the poisons which form in the system, and these are absorbed by the blood. Then when warm weather comes the blood is stirred to quicker action and begins to throw off these poisons, and they find lodgment in the system and produce disorders of various kinds.

The time to prepare for Summer is before any warning symptoms are felt or the seeds of disease have time to get too deeply rooted in the blood. The blood should be cleansed and every part of the system put in good working order, so we can start the trying summer season fully prepared to withstand the disorders and diseases it brings.

S. S. S., the recognized king of blood purifiers, is the remedy with which to prepare the system for summer. It not only builds up the constitution, but goes down into the blood and searches out all poisons that have accumulated during the Winter, as well as those that may be lurking there from old chronic troubles. It is a tonic and appetizer without an equal, and in cases of debility, weakness, nervousness and that fagged out, run-down condition it is unexcelled. Every part of the system is toned up and rejuvenated by this great remedy. There is one feature of S. S. S. that is possessed by it alone; it is entirely vegetable, while other blood medicines on the market contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, or otherwise damage the system.

The way to prepare for Summer properly is to get the blood pure and strong with S. S. S., the leader of all blood medicines and the best of tonics. Our book on the blood and any medical advice wished will be sent, without charge, to all who write.

BURT IMPROVING

Young Horseman Who Caused Sensation at Lancaster Will Probably Recover from Wound.

Lancaster, O., May 17.—Harry Burt, the young horseman who caused such a sensation at the O'Hara home Sunday night and who has since been in the county jail suffering with a bullet in his body, is improving in condition and it is now believed that he will speedily recover from the wound.

Nisley, the policeman shot by Burt, spent a bad night, his hand on which two fingers were amputated and the bone taken from the end of a third, giving him much trouble. The shoulder wound bothered him but little.

Chas. Burt, a brother of the prisoner arrived here from Jackson Monday evening and retained Attorney C. A. Radcliffe to defend his brother. Tuesday morning, James Burt, another brother, arrived. The brothers stated that they desired an arraignment as soon as possible, when they would endeavor to secure their unfortunate brother's release on bond.

FORGIVES HIS CHILD

Father Accused by Her of Murder, Says "She Didn't Understand."

Chicago, May 17.—"She could not understand—she is only a baby—she did not mean to say I killed her mother. The child was only frightened," said Joseph Leidig, as he held in his arms his seven year old step daughter, who had accused him of causing the death of his wife and baby.

"I do not hate my papa, and I only told the policeman what that girl, Clara, told me to say," sobbed the child. "Poor mamma and baby are all gone away. Oh, I wish my mamma was here."

Soothing the weeping girl in his arms, Joseph Leidig showed no resentment against the little one who had made an unfounded charge against him of having poured kerosene over his wife and baby and then setting fire to them.

Her face twitched with nervousness and grief, little Katie sobbed out her story at her grandmother's home, 524 Grand avenue, asserting that she had been told that her stepfather had quarreled with her mother and that he had poured the oil over her.

When the child told this story to the police on Sunday she withstood all cross-examination, and only admitted the falsity of her story when confronted with the dying statement of her mother, who had praised her husband for his heroic efforts to save her when her dress accidentally caught fire.

Mrs. Leidig was lighting a fire and spilled kerosene upon her dress, which caught fire. She rolled in agony on a bed in which her baby lay, and both were fatally burned, dying Sunday evening.

After the woman had made her statement at the West End hospital Leidig, who had been arrested upon charges made by his daughter, was released. An inquest was held over the bodies and they were then removed to the home of Mrs. Leidig's mother, 524 Grand avenue.

Little Katie was taken into her grandmother's house, where she met and was forgiven by her stepfather. Her two smaller sisters and baby brother will be taken care of by an aunt. The funeral took place this afternoon.

"Sulphur, which is a nuisance and an impudent adulteration among the metals," says the American Machinist, "still has a way of keeping itself uncontaminated. American producers of sulphur offer it 99.9 per cent pure."

LANCASTER WON TUESDAY'S GAME

GAME WAS EXCITING FROM THE START AND BOTH TEAMS PLAYED WELL.

Lefty Snyder Starts Out Wild, But He Pitches Good Ball—Compton Pitched for Lancaster.

Played 12; won 4; lost 8; per cent .333

Lancaster 5, Idlewild 2. Frank Locke's men attended strictly to business Tuesday at Idlewild park and took advantage of two errors coupled with four hits in the sixth inning and circled the bases for four tallies. That was the chief scoring adventure of the day except when Snodgrass and Snyder tallying in Newark's half of the eighth after an error, a base on balls followed by a clean hit. That event saved Newark from another shutout.

Newark took first turn at the bat and the side was soon reined, Compton pitching good ball. In Lancaster's turn with the big stick Lefty pitched in hard luck and could not get control of the ball. Abbott was the first man up but he hit a fly to Smith. Heller, Sump and Locke followed by getting passes to first. Heller was at third when Gygli came to bat. The latter hit a long fly to Alcock who nabbed it but could not return it to the plate in time to cut off Heller. Winters hit an easy one to Wratten and was thrown out at first.

The balance of the game was void of any spectacular plays except Lefty's wonderful stop of Matz's line drive in the fourth. Matz landed on one and it went straight to Snyder's glove where it took, retiring the side.

Both twirlers pitched good ball and Compton was unusually strong. This was Compton's first work for Lancaster and for several days the young twirler has not been using his arm but has been playing in the field every day.

BASEBALL NOTES. Lancaster has won four games this season and lost two. Her standing is 66th.

Pitcher Charlie Hatch has been released by the Peoria team of the Three I league. Hatch is a good pitcher and can probably get a good position with one of the independent teams in Ohio.

Outfielder Strong was released by the Mt. Vernon management last evening.

The Kenyon college team is playing with Mt. Vernon today.

Bill Schwartz, recently released by the Indianapolis American Association, has joined manager Motz's Akron club.

Cleveland and Columbus lead their respective leagues for the pennant race. Why can't the Reds do likewise and make it unanimous?

IN THE COURTS

ANSWER AND CROSS PETITION IN HUSSION DIVORCE SUIT.

Gault-Vogelmeier Damage Case Still on Trial—Days' News From Temple of Justice.

In the divorce case of Sarah E. Hussion vs. John Hussion, the defendant has filed his answer and cross petition in which he denies all the allegations of the plaintiff. For answer he charges the plaintiff with extreme cruelty. He says that on one occasion his wife struck him on the head with an alarm clock, cutting a deep gash in his head and severely injuring him; that at the same time she threw four large glass vases at him, striking him on various parts of the body and breaking the vases to pieces. He also charges the plaintiff with infidelity. He asks that the petition of the plaintiff be dismissed at her costs and that he be granted a divorce from her.

Damage Suit on Trial.

The trial of the case of Sarah M. Gault administratrix vs. Chas. Vogelmeier et al, was resumed to the court and jury on the convening of court Wednesday morning. As heretofore stated the plaintiff asks damages arising from the killing of her son Frank, at the Vogelmeier brick yards some time ago, claiming negligence in failing to properly protect a sand bank, which fell on the deceased.

Wants Divorce Case Reopened.

In the case of Ora A. Warner vs. Edith Warner, in which the plaintiff was granted a decree of divorce from his wife on May 15, 1905, by the Probate court the defendant has filed a motion, wherein she asks that the case be reopened, and that she be permitted to file her answer and give her testimony in her defense to the charges made by her husband against her. She says that she did not learn of the trial of the case until late in the evening of May 15, when she learned it from the neighbors. She says that she had employed Attorney S. L. James to represent her in the case and relied upon him entirely, as she is young, being under 18 years old; that she is uneducated and is dependent upon others in any kind of business or legal transactions. She says the charges made against her are untrue and that she had a meritorious and full defense to the same; that her answer was not filed by reason of the failure of her attorney to file the same; that she has been wholly without fault or neglect in this matter; that by reason of her attorney not filing her answer and notifying her of the trial she was prevented from being present at the trial and producing her testimony against her husband. She says she is in absolute poverty, and that she has not one cent to support herself or pay for her support, and that she has been supported by Mr. and Mrs. Higgins, who gave her food and shelter, and that they have received nothing for it.

Motion for New Trial.

In the case of Sarah Bash and others against Daniel Hippie and others, the defendant, Daniel Hippie, by his attorneys, Smythe & Smythe, has filed a motion in the Common Pleas court for a new trial for the following reasons:

1. Error in the assessment of the amount of recovery, the same being too large.
2. That the verdict was not sustained by sufficient evidence, and is contrary to law.
3. Newly discovered evidence, material for the defendant, which could not with reasonable diligence have been discovered and produced at the trial.
4. Error of law at the trial, and excepted by the defendant.
5. That improper evidence was admitted over defendant's objection and excepted by defendant was excluded over defendant's objection and exception.
6. Irregularity in the proceedings and trial by which defendant was prevented from having a fair trial.
7. Misconduct of the jury and of plaintiff.

Sandy Hook, N. J., May 17.—The Cunard liner Caronia, which went aground yesterday afternoon when she tried to find her way out through the channel, is still aground. Tugs are unable to pull her from her position. It is believed the vessel will have to be lightened. No apprehension is felt for the boat's safety.

DAINTY THING

Will be the Summer Man With High Heels and Low Vest—The Fashion for Summer of 1905.

Oh, but the man who is dressed in the height of the fashion this year is going to be a dainty thing, says the Baltimore Sun.

He is going to wear a narrow brimmed, high-crowned hat of stiff straw, a low turn over collar, with a graduated green or brown string tie; a pink or brown or mixed negligee shirt of crepe and a collarless fancy vest of some sky-like material, cut without a collar and buttoning far enough down to show all the beautiful color vagaries of his shirt.

His coat will be a sack of some gray material, with a thin, green stripe through it, buttoning far down, like his vest. His trousers will retain that unaltered sail effect, save that no reef will be taken in the sail at the ankles. And his shoes will be low quarter patent leathers, with the toes to such points as the previous years have not dreamed of, while the heels will be high enough to make his foot (if it is small) difficult to distinguish from Patricia's foot when she lifts her skirts over so slightly and trips across the street forced to walk on her toes because heels have reached a higher social position than they were meant for and cannot bring themselves down to the same level with the toes. High heels are placed on nearly all men's shoes this summer and it's up to somebody to produce the new manly stride, with the wavering of the legs.

Just what started the fad the shoe dealers say they do not know. Probably the men who sit in high places in the manufacture of masculine footwear got tired of making the flat heels, and are trying a little variety. At any rate, the fancy is taking.

"Of course," says the merchant who told this story, "there'll be plenty of flat-heeled ones left in the market, just as there will be a great variety in the goods worn. The russet shoe will be worn this summer more than last, although the shades will be more limited. The favorite of all is the old black calf leather."

The young tailor who told about the new trousers could give no more reason as to why the reef should be let out of the bottom of these. To the question, "Where do the orders for these things come from?" he stared blankly for a few minutes and then said:

"Oh, there ain't any orders; you just do it."

Grays and browns, with thin green stripes, of soft cheviot and worsted goods are going to be the favorites for the summer. The coats are to have vents in both center and sides, with the creases following the vents. Single-breasted suits are to be the popular ones, the coats carrying large lapels, such as are worn on a double-breasted coat. Double-breasted coats will be cut very low, with only two or three buttons and heavy lapels, rounded at the edges. The vests will be low and without collars, and it will be the thing to have fancy vests braided down the front and around the bottom with some heavy braid in sharp contrast to their own colors. Flannels will be worn as much as ever, and then there will be worsteds in small checks—"Very pretty, sir; very becoming."

STATE NEWS

Deny They Filed Charges.

Marionetta, O., May 17.—Congressman Beman G. Dawes, formerly of Newark, and A. D. Alderman, the latter a candidate for collector of revenues for the Eleventh Ohio district, when shown a Washington dispatch stating that they had filed charges against D. H. Moore with the President, grew indignant and denied the statement emphatically.

Wants Bounty For Triplets.

Columbus, O., May 17.—In the governor's mail there came a letter from an anxious father inquiring whether there was a law in the state of Ohio under which a bounty was paid to the parents of triplets. The writer is Gus Rinker of Perryburg, Wood county. He said he had been informed that such a bounty was usually paid, and that in case there was a law Mrs. Rinker and himself were eligible to the bounty. Mr. Rinker was informed that he had been incorrectly advised, and that as enterprising as the Buckeye state was in all things she had not yet gone to this extent in the encouragement of the infant industry.

Sale of Chadwick Homestead.

Cleveland, O., May 17.—Many bidders from Cleveland and other cities are expected to attend the sale Thursday of the Chadwick homestead at Euclid and Genesee street by Trustee Nathan Loeser. The property is appraised at \$40,000, and it is expected that the grounds will later be used for the erection of an apartment house. Two small vacant lots will also go under the hammer. On account of Mrs. Cassie L. Chadwick's illness and the absence of counsel, her hearing in the bankruptcy proceedings was postponed until June 6.

Blackbirds In Possession.

Wapakoneta, O., May 17.—For several years past a large flock of blackbirds has taken possession of the public park at New Bremen, this county, monopolizing the trees, walks and seats. This spring the blackbirds, in increasing numbers, have again made their appearance, and the village council is considering the proposition of putting a fence around the park and turning it over to the blackbirds for their sole pleasure and amusement.

Would Merge Breweries.

Cincinnati, O., May 17.—Three sets of promoters are busy here, trying to form a merger of all the breweries in Cincinnati, Covington and Newport. Julius Boehmke of Cleveland, who engineered the formation of the Columbus-Hosier Associated Breweries company of Columbus, is behind one of the deals. Sohngen brothers of Hamilton, who promoted the Dayton merger, and an English syndicate, are the others.

Auto Busses.

Chillicothe, O., May 17.—Two large automobile busses are to be run between this city and Bainbridge. The cars are about completed and the first run will be made the last of this week. The cars will hold about 10 passengers and will make two trips a day between the points named. The only communication between here and Bainbridge for the past 50 years has been by the old hack line.

Charge Against a Schoolboy.

Toledo, O., May 17.—At a meeting of the board of education to effect a change of truancy officers, it was charged that Arthur Brown, 15, a regular attendant at the public school, had made an attempt to blow up the Nebraska Avenue school. The boy is said to have lighted all the gas jets in the basement and then, without lighting them, turned on all jets on the upper floor.

Unitarian Conference.

Cleveland, O., May 17.—The fifty-third annual meeting of the Western Unitarian conference opened here at Unity church with delegates in attendance representing 100 churches in Ohio, Michigan, Illinois, Minnesota, Wisconsin, Iowa and the Missouri valley. An audience meeting under the leadership of Miss Fanny Field of Cincinnati was held.

Shot at Can on Boy's Head.

Steubenville, O., May 17.—Harry Doggett, a seven-year-old colored boy was unintentionally shot by Will Strouse at Mingo Junction, O. DIAMOND RING IS GIVEN MR. SISSON

EMPLOYEES OF JEWETT CAR CO. PRESENT EMBLEM TO THE RETIRING MANAGER.

Mr. Sisson Will Become New York Office Manager for the St. Louis Car Company.

One of those occurrences that serve to more closely cement the relations between employer and employee took place at the Jewett Car Works Wednesday, shortly before the noon hour. Ever since Mr. A. H. Sisson, the late general manager of the Jewett Car Works, this city, tendered his resignation, the employees from the office boy up have been desirous of expressing in a suitable manner their appreciation of his worth as a man and a friend, but not until Wednesday did they have an opportunity of doing so, as Mr. Sisson has been in New York for some days on business.

In the meantime every employee of the works had contributed his mite toward the purchasing of a fitting testimonial, which in the aggregate amounted to quite a sum of money, and a handsome two carat diamond ring with rope mounting was purchased.

Mr. Sisson returned home from New York on Tuesday night, and Wednesday morning visited the works at an early hour. All the men soon got on the fact that he had returned home, and were on the qui vive of expectancy. Mr. Bernard Wingerter, one of the faithful and indispensable attaches of the works held a consultation with the foremen of the different departments, and it was agreed that when the whistle blew at 11:15 o'clock, all the men were to assemble in the erecting shop. When the whistle finally sounded all the men gathered in the erecting shop, and Mr. Sisson was sent for. When he arrived he found every one of the 325 employees of the works assembled, and he failed to comprehend the meaning of the demonstration until Mr. C. E. Krebs, the general superintendent, who has been associated with Mr. Sisson for the past 12 or 14 years, and who was unanimously chosen to make the presentation speech, called the assemblage to order and delivered himself of the following:

My Dearest Friend Bert!—It devolves upon me to offer you in the name of the Jewett employees a slight token of their esteem and regard, as for myself, who has been so long and closely associated with you, as you and I on a certain day about fourteen years ago, entered for the race of business life together, and about seven and our half years ago, we adopted, as it were, the small infant known as the Jewett Car Works. We have labored together, hand in hand, and have ascended the hill of progress together, and it has been your, who fathered this institution from its infancy until it has grown into manhood, and as I have had the blessed privilege of laboring hand in hand with you so long, know perhaps better than any one else, your true value as a friend, a dear, trusted, loving friend. While it affords me pleasure to represent your numerous friends and admirers, and to be made their mouth piece on this occasion, yet my own grief and feeling of sorrow at the loss of such a true friend, teaches me what a true friend you have been to all of us by the admirable and praiseworthy manner in which you have discharged the onerous and responsible duties appertaining to your position, your high character, integrity and zeal have not only won the esteem and confidence of your friends, and those brought into immediate contact with you, but have radiated far and wide so that you have reached a position, one that is not only a credit to yourself, but to the country at large, and as you are about to leave us, we will always keep your image enshrined in our hearts and look back to the time of our association here, not as an abode of penance, but of great pleasure since your kindness and amiability have so rendered it, our work and labors having been illumined

ated by your always cheerfulness and patient graciousness.

The little gift we offer you is not offered for its intrinsic value, but is rich in love and gratitude and respect, trusting that you will always wear it, and as it glitters and shines before you, may it remind you how your life with us has illumined and brought cheer and inspiration to our lives and labors. May this ring always remind you of the unending and unbroken friendship and love we shall retain for you as an abiding friend and brother. Please accept it, and with it our united hopes that your life will ever be as happy as you have made ours.

And now, Bert, as you leave us, we would not be so selfish but to trust that what is our unimaginable loss will be somebody's else gain, and we will always remember you to the Divine Power and thank Him for the many years of sweet association with you we have been permitted to enjoy. My personal loss cannot be expressed by mere words, and I shall not attempt it, but may this ring bind our love and friendship together forever and ever.

At the close of Mr. Krebs' remarks, Mr. Sisson attempted to respond, but his emotion for a moment or two was so great that he was unable to say anything. He finally rallied, and in a few brief but happy remarks thanked the friends with whom he had for so long a time been associated for their token of appreciation, and assured them one and all that he would ever hear them in kindest remembrance.

At the close of Mr. Sisson's remarks he was greeted with hearty cheers from the large number of men assembled, which, more than ever testified to the worth in which he is held by them.

Mr. Sisson has accepted a position with the car company as manager of the New York office.

This is the largest individual car plant in the world, and its factories cover over sixty-five acres of ground. Mr. Sisson has the best wishes of all his Newark and Granville friends in his new position.

RUSSIAN LOSSES

Official Figures on Casualties at Mukden are Given Out by Chief of Staff Karkevitch.

Gunshi Pass, May 17.—According to a statement authorized by General Karkevitch of the chief of staff, the Russian losses for the whole period of the fighting from Feb. 19 to March 14, covering the battle of Mukden and the retreat, consisted of killed, wounded and missing as follows: Two generals, both severely wounded and now prisoners; staff and other officers, 1,905; privates, 87,477. Dividing the latter figure into classes, there would be in round figures about 55,000 wounded gathered up, 15,000 killed, 7,000 to 8,000 taken prisoners and 10,000 to 12,000 left on the field and missing. Of the last two classes the number of those taken prisoners must be calculated at not more than 5,000 to 6,000. Of guns the Russians lost 23, including 36 quick-firers. As to the siege artillery, every gun of it, with all the ammunition, was sent north two days before the retreat began.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are creak or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Do not make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

POLICEMAN SHOT

White Arresting Colored Man at Chillicothe Today—Officer Will Die From Wound.

Chillicothe, O., May 17.—Policeman William Weigand was fatally shot this morning by Oscar Evans, a colored desperado, whom Weigand caught burglarizing a residence. Weigand was shot in the breast while holding the captured man. Officer Maughmer, Weigand's companion, had a running fight with Evans, but none of his shots took effect. The negro was tracked by his bare feet to an island in Paint Creek, south of the city, and forced to surrender by Chief Reider. Evans had a fine automatic revolver and almost got the drop on Reider. He had seven bullets left in the gun.

SHOT DOWN BY ASSASSIN

Governor General of Russian Province Fatally Wounded.

HOUNDED REVOLUTIONISTS

Third Protest on the Neutrality Question Forwarded by Japan to the French Government—Losses of the Russians at Mukden and on Retreat. Political Clubs in Russia.

St. Petersburg, May 17.—The fatal shooting of Major General Sokolovsky, governor general of Ufa, is the second crime of this nature which has occurred at Ufa within two years, his predecessor, General Bogdanovitch, having been assassinated in the streets of Ufa May 19, 1903. General Sokolovsky, who as vice governor of Orenburg and later as military governor of the same province, acquired a reputation as a stern and vigorous official, was appointed to restore order in the turbulent government of Ufa, and adopted a repressive policy which long ago caused him to be marked for the same fate as Bogdanovitch. Numerous revolutionary societies were broken up by General Sokolovsky, and manifestations were not permitted under his administration, and the last acts of the governor general were the dispersal of an anti-governmental club and the suppression of the May day demonstrations, with the arrests of many armed demonstrators.

An imperial rescript modifies the decrees in nine of the western governments of Russia, giving Poles and Catholics their freedom for acquiring farming lands and purchasing properties and industrial premises, permitting schools to instruct in the Polish and Lithuanian languages, etc.

A Russian political club has been formed under the auspices of Baron Tiesenhausen and other prominent moderate liberals, and has been authorized by Interior Minister Boulgan. This example is expected to be followed at Moscow and elsewhere. The formation of authorized clubs for the discussion and propagation of political ideas will mark a distinctly new phase in the reform movement. With the passage of the Russian May day many foreign newspaper correspondents who expected an interior crisis in the spring are leaving St. Petersburg, convinced that all prospect of serious extensive disorders is over for the present.

VICTORY

For Lottery Agents in First Round of Indiana Legal Fight That Affects Every State.

Indianapolis, Ind., May 17.—The first round of the government's fight against the lottery business ended yesterday afternoon in favor of the agents—Royal C. Hammer, Indianapolis; Charles J. Daum, Evansville; Charles W. Henry and Cassius Rowzer, Ft. Wayne—who were indicted on the charge of violating the interstate commerce law by bringing lottery tickets into the state. At the close Judge Anderson said he would withhold judgment until fall, but he was inclined to believe that the indictments were not good. The points raised here are the issue elsewhere, since the Government began a crusade recently to stamp the lottery business out of the country. For some time the lotteries have been sending tickets to the large cities by special messengers in order to get around provisions of the interstate commerce law.

The indictments against the Indiana men charged merely that they "caused to be carried" the lottery tickets. It was not stated that they were carried by mail, express or freight. It was naturally impossible to charge that they were carried in any manner usual in interstate commerce, for the reason that they were carried by special messenger, but the attorneys for the lottery agents said that the carrying of a thing by a man from one point to another was not interstate commerce, and that the indictments were not sufficient, in that they did not describe the method of carrying involved.

The penalty for the first offense is any fine not exceeding \$2,000, "to which may be added" imprisonment not exceeding two years.

FORGERY

Charged to the Wife of an Airship Builder By the United States Postal Authorities.

Hartford City, Ind., May 17.—Mrs. William Roberts, the mother of six children and the wife of an airship builder, is in jail here charged with forgery.

In an affidavit filed by Postmaster A. F. Kinsley, she is charged with having raised a postal money order from \$6 to \$66. The order was one sent from Jeanette, Pa., by her husband. When arrested Mrs. Roberts had spent a portion of the money, but took the goods back, got the money again and paid it to the postoffice.

The postal authorities at Washington have been notified. Mrs. Roberts has lived here 12 years.

EXCLUSIVE CONTRACTS

MEANS CONTROL OF SHIPPING

Star Witness Before the Senate Committee on Interstate Commerce Acknowledges a Monopoly of Fruit Transportation in Parts of the West and South—His Testimony.

Washington, May 17.—President George R. Robbins of the Armour Car Lines company admitted before the senate committee on interstate commerce, which is investigating railroad rates, that the company had 20 or 30 exclusive contracts with railroads for fruit transportation business, and acknowledged a monopoly of that traffic in parts of the west and south. Wherever those exclusive contracts applied, he admitted the producers and shippers of fruit had to accept the rates laid down by the Armours. He claimed that the company was a private one and therefore not subject to the interstate commerce laws. Mr. Robbins, who was the star witness of the day, was closely examined by the committee regarding the operation of the Armour interests. These exclusive contracts with railroads, he said, were generally private contracts, though exhibited when requested. He asserted that the Armours do not get any advantages over other shippers in these cars. Replying to Chairman Elkins, the witness said that his company did not want to be subject to the interstate commerce laws.

Mr. Robbins admitted that on roads where they had exclusive contracts, like the Pere Marquette line, the roads could not engage in the shipment of the products covered in the contract in other cars. Those who complained on this matter, he added, were mostly receivers and commission men, and not the producers and shippers.

Mr. Robbins denied that the Armours were interested in any of the fruit companies in California or that the Armours had a monopoly of the transportation of California fruits, acknowledging, however, that his company had a monopoly of the fruit transportation in the Pere Marquette region and in Georgia and Florida. The Armours, he admitted, had exclusive contracts with all the South Atlantic coast states railways, exclusive contracts in east Tennessee and on certain roads in Missouri and Arkansas, and on the Southern Pacific road. The Santa Fe was a competing line in the fruit business in California. Fruit producers and shippers on these exclusive lines had to accept the rates of the Armour company, but Mr. Robbins said they satisfied 80 per cent of the shippers.

HEMENWAY

Succeeded by a Nephew of a Former Secretary of State.

Evansville, Ind., May 17.—Judge John H. Foster of Evansville, nephew of former Secretary of State John W. Foster, was elected to congress from the first district of Indiana over Major G. V. Menzies of Mt. Vernon. He will succeed James A. Hemenway, who was elected United States senator. Returns indicate that Judge Foster's majority in the district will be about 1,000. The Democrats concede defeat, but declare that when all the returns are received the majority will be reduced to about 600. In Judge Foster's county the unofficial returns from 39 of 40 precincts give the Republican candidate a majority of 1,887. Warlick county, in which the Democratic candidate resides, is expected to result in a majority of 200 for Major Menzies.

PLANTS

That Furnish Building Supplies Were Bought by Senator Clark So That He Can Complete Mansion.

New York, May 17.—Senator William A. Clark, the Montana copper king, has established a unique record in the construction of the mansion at Fifth avenue and Seventy-seventh street. Surprise was occasioned a few days ago when he purchased the Henry Bonnard bronze company for the purpose of supplying his new mansion with bronze.

Now it has been discovered that the bronze foundry is but one of similar moves made by Senator Clark since ground was broken in 1898 for his Fifth avenue home. Here is a list of the plants bought by him to defeat the plans of the contractors to bleed him: Granite quarry at North Jay, Maine. Stone finishing plant at Bangor, Maine.
